Plus OVALIVE®

Capsule

Ovulation Support

30 X 1 Bottle

10 X 3 Blisters

Properties

Ovalive plus® is a designated formula to support ovulation process, as it contains vital ingredients for this process. Both forms of inositol in our formula work synergistically to control hormone levels that are directly affecting ovulation so they help to regulate ovulation and periods, it also helps reduce insulin resistance. Coenzyme Q10 works as an antioxidant so it reduces oxidative damage and it may help preserve the integrity of eggs and improve their viability. However, Ginger root extract aims to stimulate blood circulation, and it has positive effects on egg production and quality. Folic acid lowers the risk of irregular ovulation, boosts ovulation and it reduces the risks of birth defects..

Recommended Dose:

For women only, it is recommended to take two capsules daily.

Active Ingredients

Each two capsules contain: NRV%

Folic acid	100 µg	50
Myo-Inositol	1000 mg	**
D-Chiro-Inositol	50 mg	**

Capsule

Thyroid Support

30 X 1 Bottle

10 X 3 Blisters

Properties

Thyrolive® is mainly designated to aid the thyroid function in the body, it contains several useful ingredients that work synergistically to achieve this goal. **Iodine of kelp** extract works by supporting thyroid function, the system that regulates metabolic health and hair growth. **Ashwagandha** root extract help the underactive thyroid by increasing levels of thyroid hormones and reducing fatigue and joint pain.

L-Tyrosine also induces the release and function of thyroid hormones which improve the thyroid function, improve memory and performance under psychological stress. **Magnesium** plays a vital role in the conversion of inactive thyroid hormone into its active form so it can process its function properly. **Zinc** as well is important for the release of all the needed thyroid hormones in our bodies which makes it crucial for proper hormone metabolism. **Selenium** has a different role as it has an antioxidant activity so it removes oxygen free radicals generated during the production of thyroid hormones. **Vitamin B12** has anti-inflammatory properties so it is vital for the function of the immune system. Copper plays an important role in thyroid metabolism, especially in hormone production and absorption as it stimulates the production of thyroxine hormone.

Manganese increases the serum thyroid function levels.

Molybdenum is important for the release of some thyroid hormones from the thyroid gland.

Recommended Dose:

For adults and children above 11 years, it is recommended to take one capsule every 12 hours daily.

Active Ingredients	Each serving size (1 capsule contains)	*NRV%
Iodine	150 µg	100
L-Tyrosine	150 mg	**
Ashwagandha Extract (Withania Somnifera) (root)	100 mg	**
Magnesium	100 mg	26.6
Zinc	10 mg	100
Selenium	110 µg	200
Vitamin B12	50 µg	2000
Copper	1 mg	100
Manganese	2 mg	100
Molybdenum	50 µg	100

VOMILIVE[®]

Capsule

Pregnancy Health

30 X 1 Bottle

10 X 3 Blisters

Properties

Vomilive[®] Capsules prevent morning sickness at pregnant and decrease nausea and vomiting with high safety to the fetus.

Ginger is an ancient herb used widely in history for its many natural medicinal properties and particularly as an antiemetic.

Peppermint and Lemon Balm extracts provide relief to the stomach against spasm may happen because of this case.

Vitamin B6 can be an effective measure for improving symptoms of nausea.

Recommended Dose:

For adults and children 11 years old and above, it is recommended to take one capsule daily before meal when needed.

Active Ingredients	Each serving size (1 capsule contains)	*NRV%
Ginger Extract (Zingiber officinale) (rhizome)	450 mg	**
Peppermint Extract (Mentha piperita) (leaf)	25 mg	**
Vitamin K1	25 µg	33,33
Vitamin B6	10 mg	714
Lemon Balm Extract (Melissa officinalis) (leaf)	25 mg	**

MEMOLIVE[®]

Capsule

Active Ingredients	Each 1 Capsule contains:	*NRV%
Ginkgo biloba	90 mg	*
Phosphatidyl serine	100 mg	*
Niacin	16 mg	100
Pantothenic acid	6 mg	100
Vitamin B6	1.4 mg	100
Riboflavin	1.4 mg	100
Thiamine	1.1 mg	64
Coenzyme Q10	10 mg	*
Grape seed extract		

*NRV = Nutrient Reference Values

**Product under development,
not a finished product**

Healthy brain

30 X 1 Bottle

10 X 3 Blisters

Properties

Memolive[®] contains herbal extracts, vitamins and antioxidants that contribute to maintaining a strong memory and increase the activity of brain cells, making it useful in cases of poor memory without having any negative neurological effects or damage to brain cells or the nervous system.

Ginkgo biloba increases blood supply to the brain, and the antioxidants in it help activate brain cells and improve memory.

Phosphatidylserine helps maintain the performance of brain neurons.

The antioxidants present in grape seeds contribute to maintaining the activity and vitality of nerve cells. The vitamins included in the product are useful in protect cell metabolism and maintaining their functions.

Recommended Dose:

For adults over 11 years of age, 1 Capsule per day .

HEMAFER[®]

Capsule

Active Ingredients	Each serving size (1 capsule contains)	*NRV%
Iron	17 mg	1214
Vitamin B12	10 µg	400
Vitamin B6	5 mg	357
Folic acid	400 µg	200
Copper	1 mg	100
Zinc	12 mg	120

*NRV = Nutrient Reference Values

Product under development,

Blood support

30 X 1 Bottle

10 X 3 Blisters

Properties

Hemafer[®] is an effective and gentle formulation on your stomach, it is a combination of iron, Vitamin B12, Folic acid which aids in the reduction of tiredness and fatigue.

Iron is the primer ingredient of our formulation, it has several benefits including the production of hemoglobin, the treatment of anemia, immune system support, fatigue reduction, and memory enhancement.

Vitamin B12 plays an essential role in red blood cell formation, nerve function, improves symptoms like tiredness and lack of energy.

Vitamin B6 is highly needed for the proper function of sugars, fats, and proteins in the body. It is also necessary for the development of brain, nerves, skin, and other parts of the body.

Folic acid maintains a healthy nervous system, and contributes with vitamin B12 to form healthy red blood cells which carry oxygen around the body so, it may help prevent anemia in your body. Copper has a vital role in facilitating the absorption of iron in the body which contributes in preventing anemia.

Zinc is effective in the prevention and treatment of anemia in humans and positively affects iron parameters in blood.

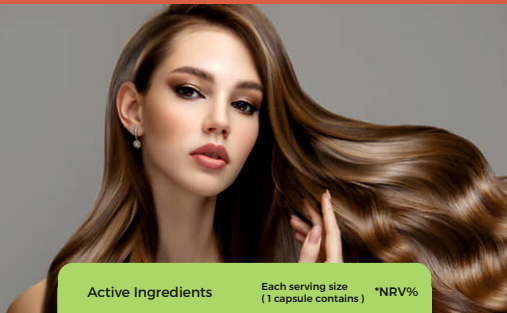

Recommended Dose:

For Adults and Children above 11 years old, it is recommended to take one capsule daily.

Hair care

30 X 1 Bottle

10 X 3 Blisters

Properties

Beautylive Plus® formula contains a vital blend of ingredients that aims to induce the nourishment and health in your body. It has positive impacts on hair, skin and nails. Horsetail extract help strengthen the bones, encourages hair growth and thickness and improves the appearance of hair, skin and nails. **Saw Palmetto extract** prevents hair loss and it increases collagen production.

D-Biotin works as hair and nails growth booster as it helps to get thicker hair and healthier nails, it is also important for eye health. Keratin supports your skin, heal wounds and keep your hair and nails healthy, as it is one of components of their tissues. **MSM** releases sulphur to keratin which helps to strengthen the bonds between Keratin molecules in hair and nails which improves their appearance. L-Cysteine makes hair and nails strong and stable, reduces free radicals, and slows down the natural ageing of the skin. **L-Methionine** encourages hair growth, prevents hair loss, strengthen nails and has detoxifying effects. **PABA** improves skin issues and has benefits to hair growth and increases its resistance against damages. **Vitamins** such as A, D3, B1, B5, C, E, Folic acid, improve the quality of hair, skin and nails, strengthen them, prevents hair loss, improves skin elasticity and induces hair growth. **Minerals** like Zinc, Iron, **Iodine** and Selenium are important for skin glow, fight hair loss, promote hair growth, and induce the formation of collagen in the body,

Recommended Dose:

For adults and children above 11 years, it is recommended to take one tablet daily with your main meal on a full stomach.

Plus PREGLIVE®

Tablet

Pregnancy Health

30 X 1 Bottle

10 X 3 Blisters

Properties

Preglive Plus® Tablets contain a group of vitamins and minerals necessary for the period of pregnancy for mother and fetus. Folic acid contributes to cell division and maternal and fetal tissue growth during pregnancy. Also, folic acid is highly required during the second and third trimesters of pregnancy and during the lactation period. Folic acid is given to women intending to become pregnant and in the early months of pregnancy to reduce the risk of neural tube defects and other birth defects. Vitamin B1 and B2, B3, and vitamin B5 support normal energy metabolism. Vitamin B6 contributes to normal protein metabolism. Vitamin B12 contributes

to the normal formation of red blood cells and the normal function of the nervous system.

Biotin supports the maintenance of healthy skin and Hair. Vitamin C supports the normal function of the immune system. Iron supports the normal formation of red blood cells and normal oxygen transport in the body. The need increases during pregnancy by about double. Vitamin D contributes to the maintenance of bones and teeth. Vitamin D also supports cell division. Vitamin K1 is very important for coagulation factors production and also plays an essential role in the metabolism of calcium. Vitamin E is a very powerful natural antioxidant. It protects the body cells from damage caused by free radicals. Iodine plays a role in the normal production of Thyroid hormones, which play important roles in meeting metabolism.

It contributes to the normal function of the nervous system and normal energy metabolism. In pregnant women, The mother's iodine supply is important because she does too the unborn child is cared for. Magnesium contributes to normal energy metabolism and to the normal functioning of the nervous system and the muscles.

Zinc contributes to the normal functioning of the immune system and protects the cell components from oxidative damage.

Recommended Dose:

For Adults above 11 years old, it is recommended to take one tablet daily with your main meal.

- Swallow with water or a cold drink, not to be chewed, to be taken on a full stomach.

Plus OSTLIVE®

Tablet

Healthy bone for pregnancy.

30 X 1 Bottle

10 X 3 Blisters

Properties

Ostlive Plus® has a balanced formula that provides a rich source of calcium with Co-factors to maintain strong bones and teeth, as well as the health of the heart, muscles, and nerves.

Ostlive Plus® also provides the daily calcium requirement for pregnant and lactating women.

- **Calcium:** plays an important and vital role in the growth, development, and mineralization of bones and teeth.
- **Magnesium:** achieves the essential balance with calcium, as magnesium deficiency in the body leads to increased calcium secretion and low blood levels, which cannot be corrected by increasing the doses of calcium and vitamin D only. Magnesium deficiency also reduces the secretion of parathyroid hormone (PTH) which in turn affects the transformation of vitamin D into its effective form (hydroxy Calciferol).
- **Manganese:** it is considered one of the important minerals for strengthening and maintaining bones, and plays a crucial role in maintaining brain tissue and stimulates the pancreas to produce insulin, as well as regulating metabolism.
- **Vitamin D3:** contributes to growth, development, and natural mineralization by helping the bones to uptake calcium, as it is responsible for the production of hormones that maintain healthy levels of calcium and phosphorus with bones and blood.
- **Zinc:** helps the permanent and constant regeneration of bones and reconstruction, as well as the health and safety of the muscles and nerves, Zinc deficiency greatly affects the ability of the bone cells to manufacture the DNA of collagen and proteins which improves bone mineralization.
- **Copper:** It contributes to strengthening the bones and protection against Osteoporosis and arthritis, it also maintains proper functions of the heart and blood vessels.
- **Boron:** It contributes to the improvement of calcium absorption and helps strengthen the bones and joints; it also significantly improves the treatment of patients with osteoporosis.

Recommended Dose:

For adults and children above 11 years old, it is recommended to take two tablets daily.

Active Ingredients

Each two tablets contain:

*NRV%

Calcium	400 mg	50
Zinc	5 mg	50
Magnesium	150 mg	40
Vitamin D3	500 IU (12.5 µg)	250
Copper	250 µg	25
Manganese	250 µg	12.5
Selenium	27.5 µg	50
Boron	300 µg	**

Syrups

HEMACAL[®]

Syrup

Blood support

150 ml Bottle

Properties

Hemacal[®] contains calcium and vitamin D3 which are useful in maintaining body's calcium in the period of growth for children and young adults.

Iron helps in preventing anemia in children and young adults in the stage of growth which need high demand of iron.

B vitamins are useful in maintaining metabolic activities of cells and supporting their functions in growth stage in addition to support red blood cells growth.

Zinc also helps in boost body's immunity.

The **amino acid lysine** helps bone and muscle growth in young adults.

Recommended Dose:

- For Children aged 4 - 10 years: 5 ml once a day after meal.
- Above 11 years: 10 ml once a day after meal.

Active Ingredients	Each 5 ml contains:	*NRV%
Calcium	75 mg	9,375
L-Lysine	67,5 mg	**
Iron	8,5 mg	60,75
Zinc	1,335 mg	13
Vitamin D3	100 IU (2,5 µg)	50
Vitamin B1	0,55 mg	50
Vitamin B2	0,7 mg	50
Vitamin B6	0,55 mg	39,28
Vitamin B12	0,5µg	20

*NRV = Nutrient Reference Values

TUSSLIVE[®]

Syrup

Active Ingredients	Each 5 ml contains:	*NRV%
Mentha piperita extract	4 mg	**
Thyme extract	120 mg	**
Black elderberry extract	25 mg	**
Zinc	2.5 mg	25
Acerola fruit extract	25 mg	**
Ginger extract	20 mg	**

*NRV = Nutrient Reference Values

Anti Cough

150 ml Bottle

Properties

Tusslive[®] contains a blend of five herbal extracts designed to help alleviate the symptoms of cold related diseases, such as cough, vocal cord irritation and sore throat.

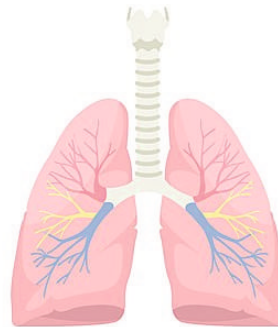

Also, they useful for raise the body's immunity.

Thyme and mint extracts support respiratory system and relieve congestion associated with the cold. **Ginger extract** gives an anti-inflammatory action to get rid of the pain associated with cold.

Recommended Dose:

For children aged 4 - 10 years: 5 ml three times a day.

For adults and children above 11 years: 10 ml three times a day.

ZINGOLIVE®

Syrup

Zinc Syrup

150 ml Bottle

Properties

Zincolve® contributes to the normal synthesis of protein
Zinc contributes to the maintenance of normal bones
Zinc contributes to the preservation of natural hair

Recommended Dose:

For Infants younger than 12 months: 1 ml with a meal.
For Children between 1-3 years old: 2,5 ml with a meal.
For Children between 4-8 years old: 5 ml with a meal.
Above 8 years old: 10 ml with a meal.

Active Ingredients	Each 5 ml contains:	*NRV%
Zinc	10 mg	100

*NRV = Nutrient Reference Values

Junior OMEGALIVE®

Syrup

Growth support

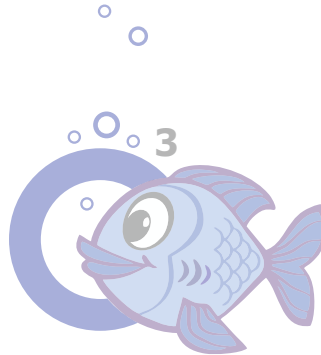

120 and 150 ml Bottle

Properties

Omegalive Junior® contains fish oil, whose main components are the polyunsaturated fatty acids DHA, EPA, which are necessary for the growth of the nervous system as it increases the activity and development of the brain, nervous system and optical nerves, in addition to helping in general growth, so it is recommended for young children Vitamin D3 and Zinc increase the body's immunity. Vitamin D3 increases calcium absorption and support bones, so they are both essential during growth age. L-Arginine plays a role in the growth for young children. L-Lysine as amino acid play important role in bone, and muscle building.

Recommended Dose:

- Children between 1-2 years, it is recommended to take 5ml once a day.
- Children above 2 years, it is recommended to take 10 ml once a day.
- It may be administered into the child's mouth or mixed with juice or other foods.
- Shake well Before Use

Active Ingredients	Each 10 ml contains:	*NRV%
DHA (Docosahexaenoic acid)	52 mg	..
EPA (Eicosapentaenoic acid)	80 mg	..
Vitamin A	2667 IU (800 µg (RE))	100
Vitamin D3	400 IU (10 µg)	200
Vitamin E	12 mg	100
Zinc	5 mg	50

*NRV = Nutrient Reference Values

HEMFER®

Syrup

Improve energy and activity

150 ml Bottle

Properties

Hemafer® Contains Vitamin B12 contributes to formation of normal Red Blood Cells.

- Iron contributes to normal formation of Red Blood Cells and Hemoglobin.

Recommended Dose:

- Children between 1-3 years old, it is recommended to take 2.5 ml two times daily.
- Children between 4-8 years old and Adolescents Up to 13 years old, it is recommended to take 5ml two times daily.
- Adults and Adolescents above 13 years old, it is Recommended to take 10 ml two times daily.
- Shake well before use.

Active Ingredients	Each 5 ml contains:	*NRV%
Iron	7 mg	50 %
Vitamin C	35 mg	43.75 %
Folic Acid	200 µg	100 %
Vitamin B6	0.5 mg	35.7 %
Vitamin B12	5 µg	200 %
Lactoferrin	25 mg	-

Fort ARGILIVE®

Syrup

Growth support

150 ml Bottle

Properties

Argilive Fort® contains several vital vitamins and minerals for body health such as: **B vitamins** that are necessary for metabolism and nervous system. It supports the normal metabolism and cellular activities to maintain the normal functions of all the body system. **Arginine** is a semi-essential amino acid required for infants and child growth that promotes GH secretion by inhibiting somatostatin, which suppresses the GH-releasing hormone. **Vitamin D** is necessary for normal growth and bone development in children. It supports the maintenance of normal muscle function and normal teeth. It plays a role in the normal absorption/use of calcium and phosphorus and in the normal blood calcium level. **Vitamin B1 and B2**, niacin, and vitamin B5 support normal energy metabolism. **Vitamin B6** contributes to normal protein metabolism. **Vitamin B12** contributes to the normal formation of red blood cells and the normal function of the nervous system. **D-Biotin** supports the maintenance of healthy skin and Hair. **Vitamin A** contributes to cell division and the normal functioning of the immune system. **Vitamin C** supports the normal function of the immune system. **Vitamin E** is a very powerful natural antioxidant. It protects the body cells from damage caused by free radicals. **Iodine** plays a role in the normal production of Thyroid hormones, which play important roles in meeting metabolism. It contributes to the normal function of the nervous system and normal energy metabolism. **Zinc** contributes to the normal functioning of the immune system and protects the cell components from oxidative damage.

Recommended Dose:

Children between 1-2 years, it is recommended to take 5ml once a day.
Children above 2 years it is recommended to take 10 ml once a day.
It may be administered into the child's mouth or mixed with juice or other foods.

Antacid

150 ml Bottle

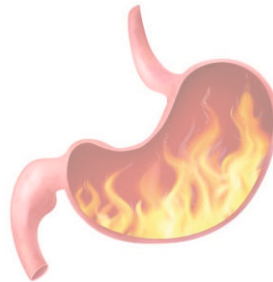

Properties

Gavilive Plus® works as "reflux suppressants". This product forms a protective layer that floats on top of the stomach contents. This layer prevents reflux and keeps the stomach contents away from the lining of the food pipe to relieve the symptoms of heartburn and acid indigestion.

It is used for the treatment of symptoms of gastro-oesophageal reflux such as acid regurgitation, heartburn and indigestion (related to reflux), for example, following meals, or during pregnancy, or in patients with symptoms related to reflux oesophagitis

Recommended Dose:

For adults and Children above 10 years: 10-20 ml after meals and bedtime Shake well before use.

With Iron

GRANLIVE

Syrup

Multivitamin & Multimineral

120 ml Bottle

Properties

GRANLIVE with Iron® Syrup contains several vital vitamins and minerals for body health such as: B vitamins that are necessary for metabolism and nervous system.

It supports the normal metabolism and cellular activities to maintain the normal functions of all the body system.

Iron is one of the most important essential elements for the body, which plays a major role in the process of transporting oxygen from the lungs to all parts of the body via hemoglobin within red blood cells, contributing to several different functions in the body such as maintaining healthy hair, skin and nails, increasing energy levels in the body by transporting oxygen to the brain and muscles.

Iron helps in preventing anemia in children and young adults in the stage of growth which need high demand of iron.

Vitamin D is necessary for normal growth and bone development in children.

It supports the maintenance of normal muscle function and normal teeth.

It plays a role in the normal absorption/use of calcium and phosphorus and in the normal blood calcium level.

Vitamin B1 and B2, niacin, and vitamin B5 support normal energy metabolism.

Vitamin B6 contributes to normal protein metabolism.

Vitamin A contributes to cell division and the normal functioning of the immune system.

Vitamin C supports the normal function of the immune system.

Vitamin E is a very powerful natural antioxidant. It protects the body cells from damage caused by free radicals.

Recommended Dose:

Unless prescribed by the physician, the usual daily dose is:

- Children aged 1-5 years: 2-3 tsps. (teaspoonful) daily.
- Children of school age and adults: 3-4 tsps.

(teaspoonful) daily.

Shake before use

Active Ingredients	Each 5 ml contains:
Vitamin A	1200 IU
Vitamin D3	100 IU
Vitamin B1	0,892 mg
Vitamin B2	0,76 mg
Vitamin B6	0,411 mg
Vitamin C	50 mg
Vitamin E	0,911 mg
Vitamin B3	5 mg
Vitamin B5	2 mg
Calcium Gluconate	25 mg
Calcium Phospholactate	25 mg
Ferrous Gluconate	43,2 mg (equivalent to 5mg elemental Iron),

HEMAFER®

Oral Vial

Active Ingredients	Each one vial contains:	*NRV%
Iron	37.5 mg	208

*NRV = Nutrient Reference Values

Treatment of anemia

8 x 10 ml Vials

Properties

HEMAFER® Oral Vials contain iron, one of the most important essential elements for the body, which plays a major role in the process of transporting oxygen from the lungs to all parts of the body via hemoglobin within red blood cells, contributing to several different functions in the body such as maintaining healthy hair, skin and nails, increasing energy levels in the body by transporting oxygen to the brain and muscles and supporting the health of the pregnant woman and the health of the fetus, as the body doubles the production of red blood cells during pregnancy and thus increases the body's need for iron during this period, in order to provide the fetus with oxygen and nutrients.

HEMAFER® provides the body with the necessary iron as a prevention and treatment for iron deficiency anemia.

HEMAFER® provides ready-to-absorb iron in a dose of 37.5 mg within the ferrous gluconate salt with good digestive tolerance.

HEMAFER® provides iron in liquid form, which helps in better absorption and better digestive tolerance.

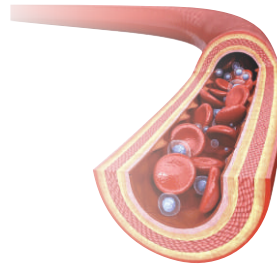

Recommended Dose:

For Adults and Children above 11 years old:

Preventive: 1 vial daily

Treatment: 2-3 vials daily

- Shake well before use.

Drops

Women GENSOLIVE®

Oral Drops

Libido booster for women

1 x 20 ml Drop

Iron	8,5 mg	60,7

*NRV = Nutrient Reference Values

BABYVIT[®]

Oral Drops

Growth support

1 x 20 ml Drop

Properties

Babyvit[®] Oral Drops contain a balanced and synergistic formula rich in vitamins and Omega-3s, to provide the recommended daily need, and is a good source of vitamins. They contribute factors working together to support the vital processes in the body and helps in maintaining the health of muscles, nerves and skin. It is appropriate for children in the stage of growth as a food supplement and general tonic. Omega-3s contribute to the growth and development of the baby's brain.

Vitamin B1: It is important in maintaining the health of the heart and brain, as it is important for the neural system, and plays an important role in carbohydrate metabolism.

Vitamin B2: Plays an important role in metabolism and oxidation, and is considered an important antioxidant for the body.

Vitamin B3: This vitamin affects all tissues of the body thanks to its important function of enzymes.

Vitamin B6: It preserves the health of the skin and contributes to the process of producing red blood cells.

Vitamin C: A potent antioxidant, enhances immunity, is beneficial for protection against heart disease and improves iron absorption and it is a general tonic.

Recommended Dose:

Infants between 6-12 months: it is recommended to take 1 dropper (1ml) daily.

Children between 1-4 years: it is recommended to take 2 droppers (2ml) daily.

Drops may be administered into the baby's mouth or mixed with juice or other foods.

Shake well before use.

Active Ingredients	Each 1 ml contains:	*NRV%

Chamomile Extract (Matricaria recutita)(flower)	1 mg	**

*NRV = Nutrient Reference Values

SINKOLIVE®

Oral Drops

Active Ingredients	Each 20 ml contains Extracts of:
Foeniculum Vulgare fruits	25%
Laurus nobilis leave	12.5%
Tribulus terrestris fruits	12.5%
Cuminum cyminum fruits	12.5%
Cucumis melo seeds	12.5%
Zea Mays Stigmata	12.5%
Cerasus avium fruits stalks	12.5%

Stands on: 20-30 mg total flavonoids in 100 ml.

Antiuroolithiasis

20 ml Drop

Properties

The active ingredients in **SINKOLIVE®** oral drops relax the smooth muscles in the urinary system and are also diuretic, which together leads to the passage of stones that do not exceed 7 mm in diameter and facilitates the expulsion of deposits in the kidney.

SINKOLIVE® oral drops have a very strong ability to relieve colic and pain in the urinary system resulting from stones.

The stone-dissolving property is due to the extract of Tribulus terrestris, as it was found that this substance prevents the formation of stones in laboratory animals in which the formation of stones was artificially stimulated. The extract also has the property of increasing diuresis and also has antibiotic properties against bacteria.

The effectiveness of **SINKOLIVE®** oral drops against bacteria is due to the essential oils, especially anethole and fenchone.

Recommended Dose:

- In acute cases: 50-60 drops with a little water, to be taken three times daily after meals.
- In chronic cases or to prevent stone formation: 30 drops two or three times daily.
- For children up to 12 years: 10-20 drops three times daily (depending on the child's weight)
- Shake well before use.

Spray
